EDUCATION

June 28,2021 - July 4,2024

HAWASSA UNIVERSITY

- Bachelor of Computer Science
- GPA - 3.66

SOFT SKILLS

- Teamwork and Collaboration
- Creativity and Innovation
- management skill
- collaboration in project
- Communication skill
- project management
- Quick Learner
- Computer Skills
- Problem-Solving
- Adaptation

ABOUT ME

I am a highly skilled and motivated graduate with a computer science degree from Hawassa University and a passion for web development, AI, and networking. I got hands-on experience in different areas of computer science during my university years, like troubleshooting, networking, web development, database management, and software installations. I have explored and worked with various web development and machine learning frameworks. I am also continuously improving my knowledge in this dynamic tech world. Certified with **Cisco (CCNAV7)**, Huawei Datacom (**HCIA** Datacom 1.0), and others. These certifications demonstrate my dedication and commitment. I am seeking challenging work opportunities that allow me to continue learning and developing as a computer scientist alongside a team of some of the best professionals in the field. As I transition into the workforce, I look forward to utilizing these skills to make a valuable impact in my upcoming role.

WORK EXPERIENCE

● IP Solution Architect/Product Manager - 10 months

Huawei

- Worked extensively with Huawei IP products, gaining hands-on technical experience
- Configured Huawei IP solutions to meet client needs
- Analyzed customer requirements and designed optimized, tailored network solutions
- Delivered Multiple technical presentations and enabled partners on Huawei IP technologies and solutions
- Represented Huawei at major industry events, showcasing IP solutions to customers and stakeholders

- **AI Intern- 6 months**
iCog Labs

- Contributed to research and development on AI and software engineering projects.
- Gained hands-on exposure to AI systems, optimization techniques, and scalable software architectures.
- Developed and fine-tuned machine learning and natural language processing (NLP) models.

- **Web, AI and Programming trainer- 7 months**
Sage Training Center

- Trained students in core programming concepts and effective problem-solving approaches
- Delivered training on modern AI concepts and practical applications
- Mentored students on programming and web development projects, providing guidance from design to implementation

- **Technology and cyber security officer - 4 months**

Bright future brokerage house plc

- **Full-stack developer**
Meskot Digitals and Hive AI

- Developed full stack and scalable web apps as a part of projects
- Collaborated with teams from mekot digitals and Hive AI to solve digital problems

CERTIFICATIONS

- Coursera Machine learning specialization
- Coursera Deep Learning specialization
- ALX software engineering certificate (**12 months**)
February 2025, ALX Africa
- Peak Craft Appreciation Certificate
June 2024, Hawassa University, Peak craft club
- HCIA Datacom V1.0
February 2023, Huawei
- CCNAv7 Introduction to Networks
November 2023, Cisco Networking Academy
- Dereja DAAP
June 2024, Dereja Academy
- Dereja Employability and Skills
June 2024, Hawassa University, Dereja.com
- Huawei AI basics course completion certificate
February 2024, Huawei
- Learning Experience Design (LXD) certificate (**3 Months**)
March 2025, Dereja Academy and GIZ

PROJECTS

Amharic text to Ethiopian sign language translator [Link](#)

- Used a fast text model with an accuracy level of about 80%
- Has a simplified dictionary
- It can translate sentences to sign videos.

Chat-bot powered English language learning platform [Link](#)

- Used a PyTorch framework to with a custom intent to train a custom model for the chat-bot
- Enables users to learn English using easy tutorials
- it can track user's progresses

RELEVANT SKILLS

Full-stack web development with various frameworks

Basic Cisco and Huawei commands

AI and machine learning (Pythorch and Tensorflow)

Basic computer skills (MS Word, MS Excel, troubleshooting, Linux ..)

languages: c++, c, `python, javascript, php
